

Arizona Behavioral Health Corporation
presents the
**2018 Eric Gilbertson Advocacy Institute for Behavioral Health
APPLICATION**

The Eric Gilbertson Advocacy Institute for Behavioral Health (aka Institute) is designed for service recipients/participants, family members, Board Members, and individuals concerned about quality behavioral health in Arizona. The goal of the training is to provide you a comprehensive overview of the Arizona behavioral health system and to assist you in becoming effective advocates for those receiving behavioral health services.

The Institute provides information, training, and resources to participants on behavioral health issues at the individual, provider, and system level. The Institute will provide participants with opportunities to meet and talk with leaders and advocates in the Arizona behavioral health system. Additionally, you will have an opportunity to meet and unite with others who have a similar interest in creating a powerful voice on important issues. You will learn how various state agencies are responsible for the delivery of behavioral health services and how the legislative process works at the state and national levels to impact behavioral health policy.
